# THESE STORAGE AIDS

## are available to farmers:

**Farm Storage Facility Loans** at 4 percent interest covering up to 80 percent of the cost of new storage bins, cribs, or other approved structures for the storage of wheat, corn, oats, rye, barley, soybeans, grain sorghums, dry beans, rice, peanuts, cottonseed, or flaxseed. The loans run for 5 years and may be repaid in annual installments after the first year.

**Storage Equipment Loans** for up to 75 percent of the delivered and assembled cost (excluding labor) of mobile conditioning and ventilating equipment to cure and dry grain. Loans are repayable in three annual installments, with 4 percent interest.

**Reseal Storage Payments** for resealing grain already under price support loans or purchase agreements and holding the grain on the farm for another loan period. Reseal storage payments for 1958 are: Corn, 16¢ a bushel; oats, 12¢ a bushel; wheat, 16¢ or 17¢ a bushel, depending on the State; barley, 16¢ a bushel; and grain sorghums, 28¢ to 31¢ per cwt. These payments are for a year of storage. If the grain is stored for less than a year, the payment is reduced proportionately.

**Plans for grain storage structures** suitable for local use and recommendations on safe grain storage procedures are generally available from county agricultural agents.
